General Information

With Reference to the Distribution of Documents

EXCHANGES

Exchanges will be made of surplus miscellaneous documents for such other documents and books as may be required when the same can be done to the advantage of the public service.

FREE TO INDIVIDUALS

The Superintendent of Documents is not authorized to supply documents free to individuals, except publications specifically authorized by Congress to be distributed to persons designated by Senators, Representatives, or Delegates. The only documents of that character now being distributed are, the compilation entitled "Messages and Papers of the Presidents, 1787 to 1897," by Richardson, and the Official Register, or "Blue Book."

FREE TO LIBRARIES

He is directed to distribute current publications to three classes of libraries, to be designated to him by Senators, Representatives, and Delegates in Congress, as follows:

To class 1.—Designated depositories;—one to be named by each Senator, Representative, or Delegate in Congress. Libraries of this class receive one copy of each of the departmental publications and of the numbered Congressional documents. These include everything sent to the other two classes.

To class 2.—Geological libraries;—two to be named by each Senator, Representative, and Delegate in Congress under the provisions of sec. 79 of the printing law, 28 Stat. at Large, 601. These libraries receive the monographs and bulletins of the Geological Survey.

To class 3.—Remainder libraries;—public and school libraries designated by Senators, Representatives, and Delegates in Congress to receive fractional remainders of Congressional quotas, under the provisions of sec. 68 of the printing law, above referred to. Such libraries do not receive complete sets of public documents, because "remainders" vary from a dozen to four hundred copies, never equaling the number of this class of depositories.

SALES

The Superintendent of Documents is authorized to sell at cost any public document in his charge the distribution of which is not otherwise provided for. Only one copy is permitted to be sold to the same person, excepting libraries or schools, and Members of Congress.

PRICES

Documents for sale by this office will be indicated by a (*) following the price named. The absence of a (*) indicates that application should be made to the Department, bureau, or division issuing the document.

HOW TO REMIT

Remittances may be made to the Superintendent of Documents by postal money order, express money order, draft, or check. In case of remittance by check the documents ordered will not be sent until after

the check has been collected. Any charge for collection will be deducted from the face of the check and documents sent for the remainder. *Stamps or foreign currency will not be accepted in any case.*

Remittances to the Public Printer should be made by postal money order, express money order, or draft on New York. Remittances to the Geological Survey should be made by money order. The War Records Office will receive currency as well as postal money orders if the exact amount be sent.

All the Government offices which have books, pamphlets, maps, or charts for sale issue price-lists, which will be sent free to all applicants. The prices charged are never more than cost and 10 per cent added, and frequently much less than that.

All public documents, from whatever Department or bureau they may be bought or procured, will be forwarded free of postage to all points in the United States, Canada, and Mexico. To other countries regular rates of postage are charged, and remittances must be made to include such postage.

A NEW FEATURE

A new, and it is hoped a helpful, feature has been added to the Monthly Catalogue, beginning with the December, 1897, issue—an index.

WHERE DOCUMENTS MAY BE OBTAINED

General directions as to where documents may be procured are given in the body of the catalogue.

SHEEP-BOUND RESERVE

The following information is given so that librarians may, if they choose, add to the schedule of volumes at the back of the Document Indexes of the 54th Congress the serial numbers assigned by this office to the sheep-bound reserve, the same being a continuation of those assigned in the Checklist of Public Documents.

54th Congress, 1st session

Senate documents, v. 1–15 = serial numbers 3347–3361.
Senate reports, v. 1–6 = serial numbers 3362–3367.
House documents, v. 1–89 = serial numbers 3368–3456.
House reports, v. 1–10 = serial numbers 3457–3466.

54th Congress, 2d session

Senate documents, v. 1–7 = serial numbers 3467–3473.
Senate reports, v. 1–3 = serial numbers 3474–3476.
House documents, v. 1–77 = serial numbers 3477–3553.
House reports, v. 1–4 = serial numbers 3554–3557.

In this Catalogue the serial numbers for the sheep-bound reserve are affixed in black-faced type to the entry.

Beginning with the 2d session of the 54th Congress, with the exception of a few volumes already distributed, the serial numbers will be stamped at the bottom of the sheep-bound volumes to be distributed to designated depositories.

Volumes 17 and 18, House miscellaneous documents, 53d Congress, 3d session, appeared after the Checklist of Public Documents was issued. Consequently these volumes received the numbers 3343 and 3344, which had previously been assigned to volumes 1 and 2, House reports of committees, and to these volumes the numbers 3345 and 3346 were assigned. There is, therefore, no break between the numbers assigned for the Congressional reserve of the 53d and 54th Congresses. See also note under Sheep-Bound Reserve in this Catalogue.

SHEEP-BOUND RESERVE

NOTE.—These volumes, which have been previously published in unbound form or in one or more cloth editions, are now for the first time ready for distribution in sheep binding. The number in black-faced type appended to the description of each volume is the serial number in the set of Congressional documents, as adopted in the Checklist of Public Documents issued by this office.

54th Congress, 1st session. Senate documents, v. 15. No. 14, 3 pts.; Congressional directory. [**3361**]

—— House documents, v. 45. Nos. 42, 3 pts., 288; National Soldiers' Home report, 1895; report of inspection. [**3412**]

—— Same, v. 81. No. 425, pt. 1; Smithsonian Institution report, 1895. [**3448**]

54th Congress, 2d session. House documents, v. 18. No. 5; Report of Secretary of Interior, v. 5, pt. 1; Education, 1896. [**3494**]

NOTE.—When the Document Checklist was compiled, in 1895, but 8 volumes of Census reports had been issued in the sheep set, and the compilers were not informed as to the form in which the remaining volumes were to be issued. So far as could be judged from the volumes then issued, each separate *book* was to be made a distinct *part* of volume 50, House miscellaneous documents, 52d Congress, 1st session. The only Census volume which at that time had been issued in parts in the sheep set was the Compendium, and in that case part 1 of the Compendium was published as part 3 of volume 50 and part 2 of the Compendium as part 4 of volume 50. Assuming that other parted volumes would be treated on the same plan, 30 serial numbers [**3008-3037**] were assigned for the Census set. When the remaining volumes appeared, it was found, however, that the plan of publication had been changed. Part 3 of the Compendium was issued as part 4 of volume 50, the same as part 2, Compendium, had been. Both parts of Wealth, Debt, and Taxation were back titled as part 2 of volume 50; Insurance, 2 parts, both were part 5, volume 50; Population, 2 parts, both part 8; Transportation, 2 parts, both part 11; Manufactures, 3 parts, all part 12; Crime, Pauperism, and Benevolence, 2 parts, both part 14; Vital and Social Statistics, 4 parts, all part 18. This notation is somewhat ambiguous and misleading. As part 1 of part 5 is devoted to Life insurance, the user would be likely to assume that the following parts would treat of the same subject, and the reader who consulted part 2 of part 5, the theme of which is Fire insurance, would almost necessarily assume that part 1 must relate to the same topic. So with part 11, of which one of the parts or volumes into which it is divided treats of Land transportation and the other of Water transportation. Evidently convenience in the use of the set would have been increased by giving each volume of each part of volume 50 a distinct number. But as this was not done, and as it was not known how many parts there would be, the plan that had been begun was followed out, and but one serial number was assigned to each part. Now it is found that the completed Census takes up but 18 [**3008-3025**] of the numbers that had been assigned to it, leaving in the Checklist an ugly gap of 12 numbers [**3026-3037**], which cannot be filled up because the numbers following, up to **3588**, have been assigned and cannot now be changed. It therefore seems advisable, if not necessary, to recast the serial numbers for the 11th Census set, and thus take up the 12 numbers now unused.

The serial numbers, beginning with **3008**, should therefore be changed as below, following the notation of the back-titles as found on the Congressional edition of the Census volumes and reproduced herewith (see Checklist, p. 95):

3008	v. 50, pt. 1.	**3023**	v. 50, pt. 11, pt. 2.
3009	v. 50, pt. 2, pt. 1.	**3024**	v. 50, pt. 12, pt. 1.
3010	v. 50, pt. 2, pt. 2.	**3025**	v. 50, pt. 12, pt. 2.
3011	v. 50, pt. 3, pt. 1.	**3026**	v. 50, pt. 12, pt. 3.
3012	v. 50, pt. 4, pt. 2.	**3027**	v. 50, pt. 13.
3013	v. 50, pt. 4, pt. 3.	**3028**	v. 50, pt. 14, pt. 1.
3014	v. 50, pt. 5, pt. 1.	**3029**	v. 50, pt. 14, pt. 2.
3015	v. 50, pt. 5, pt. 2.	**3030**	v. 50, pt. 15.
3016	v. 50, pt. 6.	**3031**	v. 50, pt. 16.
3017	v. 50, pt. 7.	**3032**	v. 50, pt. 17.
3018	v. 50, pt. 8, pt. 1.	**3033**	v. 50, pt. 18, pt. 1.
3019	v. 50, pt. 8, pt. 2.	**3034**	v. 50, pt. 18, pt. 2.
3020	v. 50, pt. 9.	**3035**	v. 50, pt. 18, pt. 3.
3021	v. 50, pt. 10.	**3036**	v. 50, pt. 18, pt. 4.
3022	v. 50, pt. 11, pt. 1.		

This will leave number **3037** open for the Statistical Atlas, which is the only publication of the 11th Census remaining unissued. The Commissioner of Labor, in charge of the Census, in his final report, dated October 5, 1897, says that "the Final Reports of the 11th Census consist of 25 volumes." These 25, however, make 26 in the sheep set, because Occupations, which in the cloth is included in Population, part 2, is separately bound in the sheep. The Abstract of the 11th Census is not one of the parts of volume 50, House miscellaneous documents, 52d Congress, 1st session, but is issued in the Congressional set as House miscellaneous document 185, 53d Congress, 2d session, and bound in volume 1 of the House miscellaneous documents of that session. The serial number of the volume is **3229**. This is the 1st edition of the Abstract, printed in 1894. The 2d edition, printed in 1896, has not been issued as a Congressional document.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent feature found on them. Three scales are used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch on the map. The size, unless otherwise given, is about 17½ inches in height by 11½ to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet catalogued below.

About one-fifth of the area of the country has been mapped, nearly every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 5c each; but in lots of 100 or more copies, whether of the same sheet or of different sheets, the price is 2c each.
